

Trying to Choose Between Flexible, Cost-Effective Asterisk® and Proprietary, Reliable Telephony?

Relax!

Xorcom IP-PBX Gives You the Best of Both Worlds

Xorcom's unique system design ensures the reliability you would expect from a proprietary telephony system, while providing the flexibility, scalability, easy integration and competitive pricing afforded by an open source platform.

The Xorcom IP-PBX line supports all the bells and whistles of the wildly popular Asterisk PBX operating system while providing the following distinct benefits:

- Dual-PBX hot failover, including telephony interfaces
- Redundant power supply and disk
- High density of telephony interface combinations in a small footprint
- Flawless fax support
- Central management with full remote maintenance
